Dear Examiner:

Thank you for granting a telephone interview, scheduled for the week of August 18, 2003, to discuss issues raised in the advisory action and earlier correspondence. This letter outlines the points we plan to address during the telephone interview.

Here, we will only discuss claim 16, the only independent claim. In response to the final office action, we have amended this claim by removing a member from the recited Markush group, i.e., fracture. Claim 16, as amended, covers a method of treating osteoporosis, angina of coronary heart disease, cerebral infarction, or ameliorating hemorheological index. The method includes administering a subject in need of treatment with *Cajanus cajan*(L.) Millsp leaves or an extract thereof.

You stated in the advisory action that "[t]he proposed amendments alter the scope of the present claims, such that they would require further consideration and search." We disagree. As mentioned above, we merely removed a member from a Markush group. Since you have already conducted a search for all five members of this Markush group, there is no need to conduct another search for the remaining four members.

Please let me know the date and time of the interview as soon as possible.

Very truly yours,

Y. Rocky Tsao
